

FINAL 2009 Region 4 Substance Abuse Prevention Plan Survey

Prepared by Benchmark Research & Safety, Inc.

The SFY 2009 Regional Prevention Plans is based on a new format but still establishes priority target populations, risk and protective factors and service types for substance abuse prevention funding. The new template simplifies the process, better aligns prevention planning with DHW and SAMHSA Block Grant requirements, and will allow us to combine the seven regional prevention plans into a composite state prevention plan. As in the past, Benchmark will use the Regional Prevention Plans as a guide while making funding decisions.

The draft Regional Prevention Plan below has been prepared by Benchmark given our understanding of the region, its people and substance abuse prevention needs. The draft plan is also based on the needs expressed in the current regional prevention plan and on the services offered by Benchmark's current roster of subcontracted prevention providers. Once we have met with regional community members to gather feedback, a final Regional Prevention Plan that incorporates the feedback will be made available on www.PreventionIdaho.Net.

Target Populations are the types of people whose attitudes, knowledge, skills, risk/protective factors, and behaviors who could benefit from substance abuse prevention programs or initiatives.

Target Populations	Priority		
Pre-school & Kindergarten	<input checked="" type="checkbox"/> Low	<input type="checkbox"/> Med	<input type="checkbox"/> High
Elementary School	<input type="checkbox"/> Low	<input type="checkbox"/> Med	<input checked="" type="checkbox"/> High
Middle, Junior High School	<input type="checkbox"/> Low	<input type="checkbox"/> Med	<input checked="" type="checkbox"/> High
Senior High School	<input type="checkbox"/> Low	<input type="checkbox"/> Med	<input checked="" type="checkbox"/> High
Parents – young children	<input type="checkbox"/> Low	<input checked="" type="checkbox"/> Med	<input type="checkbox"/> High
Parents – adolescent children	<input type="checkbox"/> Low	<input checked="" type="checkbox"/> Med	<input type="checkbox"/> High
Community Coalitions	<input type="checkbox"/> Low	<input checked="" type="checkbox"/> Med	<input type="checkbox"/> High
Other: _____	<input type="checkbox"/> Low	<input type="checkbox"/> Med	<input type="checkbox"/> High

Risk Factors are attributes or conditions individual, families, schools or communities that increase the likelihood of substance use/abuse problems.

Risk Factors	Priority		
Individual & Peer	<input type="checkbox"/> Low	<input type="checkbox"/> Med	<input checked="" type="checkbox"/> High
Examples: Early initiation, favorable attitudes, low perception of harm or wrongness of use, friends who engage in problem behaviors, alienation or rebelliousness, etc.			
Family	<input type="checkbox"/> Low	<input type="checkbox"/> Med	<input checked="" type="checkbox"/> High
Examples: Favorable parental attitudes or involvement with ATOD, family management, family history of use, family conflict or violence, etc.			
School	<input type="checkbox"/> Low	<input type="checkbox"/> Med	<input checked="" type="checkbox"/> High
Examples: Academic failure in school especially elementary, low attachment to school, early & persistent antisocial behavior, etc.			
Community	<input type="checkbox"/> Low	<input checked="" type="checkbox"/> Med	<input type="checkbox"/> High
Examples: Availability of drugs & alcohol, laws & norms favorable to drug & alcohol use, permissive attitudes to youth drug & alcohol use, extreme economic deprivation, etc.			
Other risk factors	<input type="checkbox"/> Low	<input type="checkbox"/> Med	<input type="checkbox"/> High
Other: _____			

FINAL 2009 Region 4 Substance Abuse Prevention Plan Survey, cont.

Protective Factors are attributes or conditions that buffer an individual from the influence of risk factors or reduce the likelihood of use.

Protective Factors	Priority		
Individual Characteristics	__Low	__ Med	_X_High
Examples: Disapproval of substance use, gender issues, positive future outlook, plans for college or skilled trade, resilient temperament, positive social orientation, etc.
